Northfield Partners with Private Equity Analytics Firm Aspequity to Deliver Unique New Services for Private Asset Investors

Boston — May 1, 2020 - [Northfield Information Services, Inc.](#), has entered in partnership with [Aspequity Inc.](#), to jointly provide services related to private asset cash flow forecasting and performance analytics, private asset fair value estimation, and liquidity planning and optimization of multi-asset class portfolios.

The union of the analytical strengths of Northfield and Aspequity will enable unique decision-making and reporting solutions for private asset investors and diversified asset owners. Aspequity's advanced capabilities in cash flow forecasting and risk-adjusted valuations of private deals and illiquid assets cohesively combine with Northfield's innovative risk models and optimization tools to support clients in areas of portfolio and investment management that prior to this day have been intractable for any existing commercial product. The partnership is a milestone along the way of Northfield's Everything Everywhere for Everyone strategic vision, and Aspequity's resolution to serve the full spectrum of the private asset investors due diligence process.

About Northfield

Northfield is a market leader in providing investment professionals analytical and operating efficiency tools to enhance individual portfolio and firm-wide performance. Founded in 1985, Northfield has developed open, analytical models to identify, measure and control risk. These risk models cover most marketable securities traded worldwide. Based upon sound investment theory, Northfield's products and services have stood the test of time from users within the global institutional investment community. With over 200 clients worldwide with offices in Boston, Chicago, London, Sydney and Tokyo, Northfield strives to be a preferred partner for institutional investors and asset managers. For more information, please visit www.northinfo.com.

About Aspequity

Aspequity helps customers with the complex challenges of investing in private assets. The firm provides powerful analytics to a global client base of LPs, GPs, data platforms, and investment consultants. By combining in-depth industry experience, data science, quantitative methods, and fundamental investment analysis expertise, Aspequity's team enhances their customers' decision-making, fund manager selection, asset allocation, investor communications, and business development. The company's products and services cover all private asset classes - private equity, venture, private debt, real estate, infrastructure, and resource assets. For more information, please visit www.aspequity.com.
